

Manchester New Square Update

May 2019

We are delighted to provide you with our quarterly update for Manchester New Square

- Floor plates and roof slabs to all 3 buildings are now complete.
- The Carding Building façade is now complete.
- The Calico Building façade has now commenced.
- The brickwork façade to the Linter building has reached level 9 which now clearly defines the vast private terrace spaces on level 7 and level 12
- Internal works will now progress in each building respectively ready for handover during Q2/Q3 2020.

- Bathroom and shower room pods have been installed to all buildings.
- Lower Level Floors in Carding Building are now closing out after the successful installation of apartment partitions. This will allow a first fix to commence which includes electrical, plumbing and heating to be installed.
